

Building with Humanity

Campaign to build more homes in Bristol and Norfolk county neighborhoods.

INVESTMENT OPPORTUNITY

Our 2025 home is the former South Franklin Congregational Meeting House, a small white church built in 1856, with imposing Doric columns. This is historic property located at **762 Washington Street, Franklin, MA** is located on 0.655 acres and has 1,620-square feet of interior floor area. The First Congregational Church of Franklin deeded the property in 1972 to the town and it has been unoccupied since 2007.

In partnership with the Franklin Historical Commission, Old Colony Habitat for Humanity will be converting this majestic property into an affordable home which will occupy two floors with 3 bedrooms and 2 bathrooms. We anticipate the family move-in date June 2026.
