

Building with Humanity

14 Island Road, Norton

Campaign to build affordable homes in Bristol and Norfolk County neighborhoods.

Our 2026 project will transform a long-vacant lot from an overgrown thicket into a beautiful, affordable home for our next Partner Family. The property, located at 14 Island Road in Norton, MA, was kindly donated to us by a Norton resident. It is thanks to this anonymous donor and the Town of Norton that we will be able to support our community and provide a local family with a safe, stable, and affordable new home. We are now in the process of converting this property into an affordable, energy-efficient home featuring two floors with three bedrooms and 1.5 bathrooms. This project preserves the character of the neighborhood while also bringing community stability and making productive use of the vacant residential land. We anticipate welcoming the new homeowners in 2027!
